*Author: Britta Kienle*

Dear reader,

this book is a short introduction into the art of laying the cards. This art is very much depending on the personal intuition of the person practicing it. Every person has to find their own system of laying cards. This book can only offer a guideline. Therefore neither the author nor the publishers are to be held responsible for any misinterpretation made by using this book.

### Foreword

Dear Cartomancer,

Over time I developed this Complementary Cards, which always gave and give me helpful assistance.

These cards are meant as an additional set of cards, which can be used in connection with other in the market available card decks like Lenormand cards, Gipsy cards, Kipper cards or Tarot cards.

These cards should give assistance to the question

#### ***WHAT TO DO?***

To find an answer

#### ***Why?***

#### ***For which reason?***

#### ***Wherefore?***

For what do we need additional Complementary Cards?

People looking for advice from the cards often are desperate and have the feeling to be in a deadlock.

Then a simple warning does not do the job. Those not seeing a way out often know that an action is required.

But

**What to do?** and especially **HOW to do it?**

that is the question!

---

A thoughtless or inappropriate reaction sometimes brings forth the opposite of what is desired.

The use of the Complimentary Cards can assist you with the question:

**"How shall I act or react?"**

These 14 Complimentary Cards offer an important assistance by finding the solution to a problem. They offer pieces of advice on how to act in a given situation.

I wish you much fun and success

*Yours, Britta*

## Just an Exercise

- **Question:** *Why are there always tensions at work with my colleagues?*

This sequence was found in the table about the topic 'work':

After this question I asked my client to get a Complimentary Card together with request to specify her question and to whisper it during the drawing of the card.

I let the client get one of those cards:

### KEY

rethinking  
open up to the new  
open doors towards the other  
side/party, to view from a dif-  
ferent angle/position

**From that, a clear advice emerges:**

The client has to be willing to also look at the situation from the colleagues' point of view. For this at first a rethinking is necessary.

She has to be willing to be more open and reach out to her colleagues. This rethinking also would improve the situation with her spouse, because it is a general problem of this client.

### Closing statement

As you can see from this example the 14 Complementary Cards offer an important assistance to find the solution to a problem.

No matter whether in addition to the cards according to Madame Lenormand, Tarot cards, Gipsy cards or even I-Ging and other oracles, these cards can offer an additional suggestion. Alternatively these 14 Complementary Cards independently assist with an eventually draw of a card to re-evaluate an already existing situation.

Calmly think about the message and the advice of the cards, and then decide which way you want to go. And never forget:

***Life offers you options.***

You are responsible for the path  
you finally walk.

*Yours, Britta*
